CSE463 – Human Computer Interaction

Assignment 4 - Heuristic Evaluation

Ideally, use the website you have picked for your final project. You will use the Usability Review Template designed by Neil Turner (UX designer) to conduct a heuristic evaluation. Make sure to include comments explaining the values.

After completing the heuristic evaluation, create a document conveying the results. At a minimum, the document should have the following:
- A summary of the website and the overall findings from the analysis
- Details on specific problem areas and an explanation of how the issues relate to the concepts we have covered in class
- Suggest improvements that may address the problem areas
- Offer suggestions on what metrics you might use to evaluate whether the suggestions were effective

Please, create a SINGLE PDF file with both the excel spreadsheet and the analysis. Please put use the following format for the files:

Name your file LASTNAME_FIRSTNAME_ASSIGNMENT4.PDF
